

Stage 2: Internship Selection Process

About Grow My Therapy

Grow My Therapy builds **high-quality, design-forward websites and marketing systems** for mental health professionals—primarily across the United States and Canada.

Our Hiring Process

We follow a **3-stage selection process** to ensure a good mutual fit.

-  **Stage 1:** Questionnaire (Shortlisting Round)
 - [*You are here*] **Stage 2:** Practical Assignment (Skill Evaluation)
 - **Stage 3:** Live Interview
-

Role Overview

This is a **Front-End Developer Internship** for someone who:

- Loves front-end development, UI/UX, and visual polish
 - Enjoys writing and refining website copy
 - Has a good eye for spacing, typography, and color systems
 - Communicates confidently in **spoken and written English**
 - Thrives in a fast-paced environment and learns quickly
 - Can commit **full-time (8 hours/day)** for **at least 6 months**
-

Unique Perks & Incentives

Annual All-Paid Team Workation (Starting 2026)

Once a year, the entire team will travel together to an inspiring location—mountains, beach towns, or creative hubs—to work, bond and explore

- Travel, accommodation and meals fully covered
- Remote-friendly, flexible work setup
- 5 days work week

If your long-term vision includes **remote work, travel, creativity, and meaningful work**, this role aligns strongly with that path.

Commitment Requirements

- **Full-time:** 8 hours/day | 5 days/week
 - **Minimum duration:** 6 months
 - Comfortable with late working hours due to U.S. time zones
-

Internship Assignment – Cloning & Creative Redesign

Objective

You will **clone a homepage**, then **redesign it with a new theme, copy, and images**, while preserving the original layout.

This mirrors real work we do for clients.

Tech Stack

- **Next.js + Tailwind CSS (required)**
- You may use any component libraries
- AI tools (ChatGPT, Cursor, Bolt, etc.) are allowed and encouraged, but use them intelligently—refine manually; no blind copy-paste.

 **Important:**

AI is allowed, but blind copy-paste is not. We want people who **use AI intelligently**, then refine manually.

Website to Clone

You will clone the **homepage** of this template:

<https://www.conejovalleycounseling.com/home>

Counseling in Newbury Park, CA | Conejo Valle...

Counseling for adults, couples, and children in Newbury & across CA. EMDR, trauma & dissociation, special needs parenting,...

<https://www.conejovalleycounseling.com/home>

Assignment Breakdown

Part 1: Clone the Homepage (UI Accuracy Test)

Goal: Test your frontend and UI replication skills.

You must:

- Recreate the **layout, spacing, structure, and responsiveness**
- Match section order, grid systems, and hierarchy
- Ensure mobile responsiveness

Checklist for Completion:

- ☐ My clone looks exactly like the original
<https://www.conejovalleycounseling.com/home> homepage in terms of layout and structure.
- ☐ It is fully responsive across desktop, tablet, and mobile views.
- ☐ It follows the same fonts, typography, and styling as the original.
- ☐ I have used reusable themes/colors (e.g., via Tailwind CSS classes or CSS variables) for easy maintainability.
- ☐ I have ensured consistent spacing, padding, and margins throughout.

Part 2: Redesign Using an imaginary therapist's Profile

Once the homepage is cloned, you will redesign it using [Dr. Maya Reynolds' profile](#) as the *single source of truth* for content.

 **Dr. Maya Reynolds (Imaginary Therapist) - [Profile Link](#)**
<https://docs.google.com/document/d/1-IJVKEjuqV9CTd9QH16UNHJ7...>

[Dr. Maya Reynold's Profile](#)

You will be evaluated on how accurately and thoughtfully you extract information from the profile.

Theme & Color Palette

- Replace the existing color palette with a **new cohesive theme**
- Choose a primary, secondary, and accent color

We are evaluating your **design eye**, not just technical ability. The new color palette should look aesthetic and match the overall design vibes.

Checklist for Theme & Colors:

- ☐ I have replaced the existing theme
- ☐ I have selected a new color palette different from the current palette (primary, secondary, accent) that is cohesive and aesthetically pleasing.
- ☐ I have updated all elements (images, backgrounds, text, buttons, etc.) to use the new colors consistently.
- ☐ The new theme maintains readability (e.g., sufficient contrast) and visual balance.

Copywriting

This tests your ability to:

- Read and understand therapist profiles
- Translate that information into clear website copy

The Task

- Rewrite **all homepage copy** (headlines, subtext, button text)
- Strictly base all copy on [Dr. Maya Reynolds' Profile](#)

Dr. Maya Reynold's Profile

- This includes: H1 headings, subtext below headings, services (choose and describe three relevant services), about section, FAQs, and any other text elements.
- SEO optimized for the local region in the profile, following best SEO practices (e.g., include relevant keywords in H1, headings, and body text; use location-specific terms; ensure natural keyword integration for search engines).

You may use AI tools, but **final judgment and refinement must be yours.**

Copy Must Be Based On:

- Therapist bio and approach
- Modalities and specialties
- Client focus and populations
- Location and practice type
- Any other information from their Psychology Today profile

Checklist for Copywriting:

- ☐ All copy is derived from the [profile](#)
- ☐ Headings (e.g., H1) include SEO keywords relevant to the main specialty and location mentioned in the [profile](#)
- ☐ Services section features three services pulled from the [profile](#), with descriptions.
- ☐ About, FAQs, and other sections are tailored to the [profile's](#) details.
- ☐ Copy is SEO-optimized: natural keyword usage, location mentions, and best practices applied.

Images

- Replace all images with new ones

- Images should:
 - Match the new theme and color palette
 - Feel intentional (not random stock photos)
 - Support the message of each section
 - Be relevant to the section and the theme

Image choice is a **major evaluation factor**.

Checklist for Images:

- ☐ All images have been replaced with new ones that match the new color palette and theme.
 - ☐ Images are relevant to the services and content from the [profile](#).
 - ☐ Images feel intentional and support the section's message
 - ☐ I have added Maya's picture and created a bio using from her [profile](#)
-

Part 3: Add One New Custom Section (Creative Thinking Test)

Create **one completely new section** that does NOT exist in the original template: an **"Our Office"** section.

This section should:

- Fit naturally into the homepage flow
- Use office details mentioned on the [profile](#)
- Use consistent spacing, typography, and styling from the rest of the site
- Feel warm, human, and trustworthy—aligned with a therapy practice
- Highlight the therapist's physical practice space (even if the profile implies in-person or hybrid sessions)

Section Requirements:

- Section title (e.g., *Our Office*, *A Calm Space for Healing*, etc.)
- Short supporting copy describing the office environment and what clients can expect
- 2–3 images representing:
 - The therapy office / counseling space (Should be taken from their profile)

- Optional supporting details such as:
 - Location mention
 - In-person / hybrid session availability
 - Emphasis on safety, comfort, and privacy

Checklist for New Section:

- ☐ I have added an “**Our Office**” section that does not exist in the original template.
 - ☐ The section includes a clear heading and thoughtfully written supporting copy.
 - ☐ I have used relevant images of the office from <https://docs.google.com/document/d/1-IJVKEjuqV9CTd9QH16UNHJ7...>
 - ☐ The copy and office images aligns with [Dr. Maya Reynolds Profile](#)
 - ☐ **[IMP]** The section integrates seamlessly with the site’s theme, design, spacing, and typography.
-

Part 4: Video Walkthrough (Communication Test)

Record a 5 minute [loom](#) video assuming you are giving a demo to the client.

- Treat this as demoing the first draft of their requested website.
- Cover desktop & mobile walkthroughs.
- Explain your design choices, what you've done with their information ([Dr. Maya Reynolds profile](#)), and key features.
- Use non-technical language to explain what they are looking at and why it benefits them.

Good English, clarity, and confidence matter here.

Checklist for Video:

- ☐ Video is 5 minutes long.
- ☐ Presented as a client demo to an imaginary therapist Dr. Maya Reynolds: "Here's your new website draft," focusing on benefits and how it uses their profile info.
- ☐ Includes walkthrough of desktop and mobile views.
- ☐ Explains design choices and copy in **non-technical terms**.

☐ Clear, confident communication **without** technical jargon.

Submit Assignment

Deliverables

1. Live website link (Vercel / Netlify / similar)
2. Public GitHub repository
3. Video walkthrough link

Submit Assignment

Important: Assignment Submission Deadline

The assignment must be submitted **within 6 days from the date you received it on Internshala**.

We use **Internshala to strictly track assignment deadlines**, so please ensure your submission is completed **before the 6-day window ends**.

Late submissions:

If you submit the assignment **after 6 days**, you will receive an automated email stating that you are past the deadline, and **we may not consider the assignment** for the next stage.

Please plan accordingly and submit on time.

What We Are Evaluating

Area	Weight
UI cloning accuracy	25%
Theme & design sense	25%
Copywriting & images	10%
New section creativity	10%
Communication (video)	30%
